Dear Mr. Jim:

TRANSMITTAL OF DRAFT A OF THE "200-TW-1 SCAVENGED WASTE GROUP  
OPERABLE UNIT AND 200-TW-2 TANK WASTE GROUP OPERABLE UNIT RI/FS  
WORK PLAN," DOE/RL-2000-38

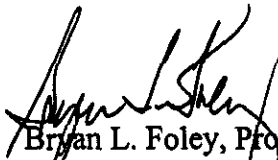

Attached please find a copy of the subject document for your information.

This work plan is currently undergoing a regulatory review which ends on September 20, 2000. It is the fourth work plan in a series of several to follow the streamlined approach for characterization and remediation of the 200 Areas as described in "200 Areas Remedial Investigation/Feasibility Study Implementation Plan – Environmental Restoration Program," DOE/RL-98-28. The work plan contains the elements of a Comprehensive Environmental Response, Compensation and Liability Act of 1980 Remedial Investigation/Feasibility Study (EPA) work plan. A sampling and analysis plan is included as an appendix to the work plan.

Following the regulatory review period, comments will be incorporated and a Draft B may be prepared for public review.

Your comments, should you decide to review the document, are welcome. Please do not hesitate to contact me if you have any questions, or if you need additional time to complete your review of the document. I can be reached at (509) 376-7087.

Sincerely,

  
Bryan L. Foley, Project Manager  
Environmental Restoration Division
